# Vector™

## THE ULTIMATE MORTGAGE RISK MANAGEMENT PLATFORM

*Negotiating the twists and turns of today's lending environment is difficult when you lack the information you need to deploy the most effective mortgage risk policies.*

*We not only provide the largest online property and ownership database in the nation, we deliver the most advanced mortgage risk management platform so you can easily automate your underwriting rules no matter how simple or complex.*

---

## **Vector™**

**Instant decisioning power every step of the way.**

*Vector is a configurable, intelligent and secure platform that allows you to automate your mortgage risk policy. Now you can automatically detect fraud, enforce your mortgage underwriting rules and assess loan quality in just seconds—significantly reducing your costs and process time.*

### **Instantly deploy and monitor your underwriting rules.**

Vector's rules management solution allows you to apply your underwriting criteria to enforce credit policy guidelines. Access standard management reports—or create custom reports—to verify the efficiency of your underwriting rules and monitor their performance to meet compliance requirements.

### **Mitigate fraud and default risk.**

Use Vector's powerful loan quality assessment and fraud-detection tools to minimize your exposure and expedite loan approvals. Vector delivers more mortgage valuation options—including Traditional Appraisals, Broker Price Opinion and Insured AVMs—giving you the in-depth intelligence you need to make confident decisions.

### **Powerful vendor management.**

Vector allows you to transparently manage your use of mortgage valuation products through an enterprise-class TruSecure® certified platform. Detailed reports allow you to quickly review and adjust your product selection rules based on performance and enforce your vendor service level agreements.

**Experience the power of Vector—  
the only mortgage risk management  
platform that works your way.**
